

CURRICULUM VITAE

Jeffrey Edward Lazarus, MD, FAAP
1220 University Drive, Suite 104 --- Menlo Park, California 94025
(650) 322-5333
www.jefflazarusmd.com

EDUCATION:

1974-78 M.D., Rush Medical School, Chicago, Illinois
1970-74 B.A., Magna cum Laude, Washington University, St. Louis, Missouri

POST-DOCTORAL TRAINING:

2010- Level 3 Advanced TEAM-Cognitive Behavioral Therapist; Level 4, Trainee
Feeling Good Institute
1979-81 Resident in Pediatrics, Stanford University, Stanford, California
1978-79 Intern in Pediatrics, Stanford University, Stanford, California

POST-DOCTORAL WORK:

2010-11 Private Practice, The Village Doctor, Woodside, California
2008- Private Practice, Child & Adolescent Clinical Hypnosis and TEAM-CBT,
Menlo Park, California
1981-2008 Private Practice, General Pediatrics, Cleveland, Ohio

ACADEMIC APPOINTMENT:

1981-2000 Associate Clinical Professor of Pediatrics, Case Western Reserve University
School of Medicine, Rainbow Babies and Children's Hospital

PROFESSIONAL SOCIETIES:

- Fellow, American Academy of Pediatrics
- Approved Consultant, American Society of Clinical Hypnosis
- International Society of Hypnosis
- European Society of Hypnosis

VIDEO PUBLICATIONS:

Lazarus, J. E. **Keeping the Bed Dry**® 2014; www.keepingthebeddry.com

A medically proven, comprehensive online home video program that incorporates medical hypnosis for individuals with nocturnal enuresis. It was used in a study done by the Division of Pediatric Urology, affiliated with Doernbecher Children's Hospital and Oregon Health and Science University in Portland, Oregon.

Lazarus, J. E. **Controlling Your Gut Feelings**® 2017; www.controllingyourgutfeeling.com

An online home video program designed for families and therapists. It provides a comprehensive program that incorporates medical hypnosis, cognitive behavioral therapy strategies, and motivational interviewing techniques to treat patients with irritable bowel syndrome, functional abdominal pain, and other functional gastrointestinal disorders as well as the anxiety that accompanies them.

RESEARCH PROJECTS:

1. **Division of Pediatric Urology, Oregon Health and Sciences University, Portland, Oregon.**
The division used my program, "Keeping the Bed Dry[®]," in a medical study for patients with nocturnal enuresis (bedwetting.)

The objective was to determine if a self-guided comprehensive home video program that incorporates medical hypnosis, behavioral strategies, and techniques to build positive expectations, can help patients with Primary Monosymptomatic Nocturnal Enuresis (PMNE) when used as initial therapy.

Bayne AP. Self-guided Online Medical Hypnosis Program Improves Dry Nights in Children With Nocturnal Enuresis in a Prospective Single-Center Pilot Study. *Clinical Pediatrics*. 2023; 0(0). doi:10.1177/00099228231186690

2. **Division of Pediatric Gastroenterology, Children's Hospital of Philadelphia, Philadelphia, Pennsylvania.**
The division is using my program, "Controlling Your Gut Feelings[®]," in a medical study for patients with irritable bowel syndrome (IBS), functional dyspepsia, and functional abdominal pain (FAP).

The objective is to determine if a self-guided comprehensive home video program that incorporates medical hypnosis, cognitive behavioral therapy strategies, and powerful motivational techniques, can help patients with IBS and FAP.

3. **California Northstate University Medical School.**
Long Term Efficacy of Self-Hypnosis Therapy on Patients with Tics and Tourette Syndrome.

This is a follow up study for the retrospective series described in this article:

Lazarus, J and Klein, S. Non-Pharmacological Treatment of Tics in Tourette Syndrome with Videotape Training in Self-Hypnosis. *Journal of Developmental & Behavioral Pediatrics*. July/August 2010 - Volume 31 - Issue 6 – pp. 498-504.
